Please include in your email:
- Clinical History
- PMH, Social Hx, KDA, etc.
- Representative picture
- Pertinent radiograph(s)
- Clinical Impression (DDX)

With representative clinical pictures of the lesion and pertinent patient information, our faculty member can reply with a written recommendation within 48 hours.
SYNCHRONOUS (LIVE) CONSULTATIONS
LIVE ORAL PATHOLOGY CONSULTATIONS AVAILABLE VIA VTC
ORAL PATHOLOGY TELEDENTISTRY SERVICE

LIVE CONSULTATIONS

Monday to Friday
8am - 12pm & 1pm - 5pm

Using an intraoral camera you can have access to a specialist in oral pathology and/or oral medicine in real time
HOW TO SET-UP THE CONNECTION FOR LIVE CONSULTATIONS

1. Please call 252-737-7021 to schedule the consultation with the on-call specialist.

2. Download Cisco Webex Meetings to the same computer you will use to communicate with our faculty member.
   - This computer should be one you can carry to your chair by your patient and you can plug your intraoral camera to.

3. Connect your intraoral camera to the computer and run the camera software.

4. Make sure the audio is up and running so you can hear instructions from the consulting specialist and technical support.

5. Once a connection has been established, share the screen on Cisco Webex.

6. Navigate with the camera in the patient’s oral cavity so the lesion(s) of concern are displayed clearly on the screen.
CONNECT YOUR INTRAORAL CAMERA TO THE COMPUTER AND RUN THE CAMERA SOFTWARE TO PROJECT THE CAMERA ON THE SCREEN
